

Is your child two to five years old?

Looking for a fun activity to do together and help us learn about how the brain develops?

Earn **\$50** per visit by participating in our infant and toddler development studies at the

Autism And Neurodevelopmental Disorders Institute (ANDI)!

at

George Washington University &
Children's National Health System

Eligible children should **either** have an **Autism Spectrum Diagnosis** or **no current and / or past neurological or psychiatric disorder**.

To learn more, please contact us!
